The School of Engineering and Information Technology

Research Associate
Fixed term 3 Years

Salary: Level A: $59,466 – $79,288 pa + (Super)

An exciting opportunity has become available within The School of Engineering and Information Technology at UNSW@ADFA as a Research Associate (RA). As a key member of the research team, the Research Associate will undertake research and experiments in host-based intrusion detection. The RA will also be expected to undertake a certain amount of casual teaching.

The successful applicant will design new algorithms and compare new algorithms with existing algorithms for host-based intrusion detection. The successful applicant will also prepare reports summarizing the results gained from the research and prepare conference and journal papers describing the research results, and present research results at international conferences. Assist supervising research students and support the team’s other cyber security activities.

For application and position description information, please visit our website http://hr.unsw.adfa.edu.au/employment/index.html

For additional information regarding the position, please contact Jiankun Hu by phone (02) 6268 8186 or email J.Hu@adfa.edu.au

Applications must systematically address the selection criteria and include a resume and the names and addresses of at least three referees.

Applications which do not address the selection criteria may not be considered.

Membership of UniSuper superannuation scheme is a condition of employment.

Written applications should be submitted to HR Recruitment, UNSW Canberra Northcott Drive, Canberra, ACT 2600, or you may email your application to uni.college.recruitment@adfa.edu.au. People from EEO groups are encouraged to apply.
